Extended search

Plant for receipt of data	Plant for incoming goods	Data sender number	Supplier number	Consignment number	Delivery note number	Truc da
All plants	All plants					

Filter: Here you can select what should be displayed. E.g. only deleted transmissions

Category: Here you can select what should be displayed. Preset are always all error categories

Filter and category are "AND"-linked, for example: Search RDTs "Delivery to third party" which are OK or contain A or B errors.

Status: Here you deselect what should NOT be displayed, for example: search for all statuses **except** drafts.

Examples of application:

The category A-C and green selects the total scope.
Here the search scope can be limited by deselection or only a certain error category can be selected.
Here only error free

Category	Number	Status	Number

<input type="checkbox"/>	0	<input checked="" type="checkbox"/>	0
<input type="checkbox"/>	0	<input checked="" type="checkbox"/> Toggle all	0

Category	Number	Status	Number
<input type="checkbox"/>	0	<input checked="" type="checkbox"/>	0
<input type="checkbox"/>	0	<input checked="" type="checkbox"/>	0
<input type="checkbox"/>	0	<input checked="" type="checkbox"/>	0
<input checked="" type="checkbox"/>	0	<input type="checkbox"/>	0
<input type="checkbox"/>	0	<input checked="" type="checkbox"/>	0
<input type="checkbox"/>	0	<input checked="" type="checkbox"/> Toggle all	0

By further restricting by items in the "Draft" status, the search scope is again restricted and the "Drafts" are no longer displayed.

- The number of lines and the date can be set via the user-dependent search parameters.
- The tips are used to enable a quick and targeted search
