

Additional specifications for the special transport process

In general, the VDA 4913 specification applies. The deviations for the delivery of a special transport (Sofa) are described below. Please coordinate with your Mercedes-Benz contact person to obtain the bordero number (special transport number) as well as the transport partner number. In addition, your contact person will automatically receive this information via email when the special transport is assigned. The transmission of uncoordinated bordero numbers (special transport numbers) is not permitted, as this can lead to faulty EDI processing and cause serious delays in the handling process.

Record type	Pos.	Position	Data element	Example of entry/Code
SA 712	13	62-75	Transport partner number	12345678
SA 712	14	76-77	Means of transport code	02
SA 712	15	78-102	Means of transport number	SL/SHxxxxxxxxx
SA 712	16	103	Means of transport information code	02
SA 712	17	104-111	Means of transport information	BB D 123

Sample view in IBL-DQM:

Transport partner number	SA712 Pos. 13	17510371
Carrier	SA712 Pos. 05	17510371
Means of transport code	SA712 Pos. 14	Bordero number
Means of transport number	SA712 Pos. 15	SH124289
Means of transport information code	SA712 Pos. 16	Number plate
Means of transport information	SA712 Pos. 17	WE8Y917
